The dates scheduled to date are:

There are 40 telephone lines, which will allow most counties to participate on one day or another at their convenience. Agendas will be faxed to the counties 24 hours before the conference. If there are any questions or suggestions for agenda items, please identify them and phone your regional office nurse consultant.

CMS Net Web Updates 7/7/2004

- Correction to the user and client county relationship: Counties with a county code of 01-09 could not authorize a SAR.
- Correction to the validation of the Pend/Deny indicator: CMS Net Web was modified to read each procedure code and type record to ensure the correct Pend/Deny indicator is validated. Users were receiving a message that a code had a Pend/Deny indicator when indeed it did not. This prohibited users from authorizing a SAR.
